

TURBO CLEANER

Down to 50%
water
consumption
compared to a
standard
product

Air & water
spraying at the
same moment
for a very
efficient cleaning

High robustness
of the product
with aluminium
body

Suitable for the
complete food
industry

Main characteristics

Maximum water temperature	65°C
Recommended water pressure	3 bars
Recommended air pressure	6 bars
Maximum air pressure	10 bars
Air consumption	10m ³ /h max
Weight (without coupling part)	650 g
Raw material	Aluminium body
Additional product	Wash nozzle, STANDARD ECOJET, LIGHT ECOJET
TERMET part number	4866
